

## Allerton Grange Careers

where will your next steps take you?

# Post 16 Applications - The Process of Applying

## Step

Do your research!
See lots of different
colleges and look at all of
the courses they offer, to
decide on the best one/s to
apply for. Looking at college
websites will also help.

## Step 5

Accept as many offers as you want BUT the minimum number you should accept is

2. This is to ensure you have options next summer.

#### Extra help..

You can and should apply to multiple colleges and/or for multiple courses. The more offers you have, the better your position next summer.

Seek help! Your form tutor, Miss Drew, your teachers, Mrs Mills and the Year Team are all here to help.

To apply, you'll need your predicted grades, an email address that's NOT your school one and contact details for yourself and a parent/carer.

## Step 2

Apply to each college and each course you are considering. You must do a separate application for each college and course (2 is the VERY minimum).

Applications are made on each college's website in your own time.

### Step 4

Respond to emails and attend your interview! If you fail to turn up for an interview or welcome day, or if you don't reply when they have asked you to, the college will assume you no longer want the place.

## Step 3

Switch on email alerts, to ensure you know when a college has replied to your application. Check your emails regularly, as you may need to book an interview and check the status of your application.
